Makassar, Indonesia

I'm Bachelor Degree in Information System from Hasanuddin University, majoring in Faculty of Mathematics and Natural Science, with a GPA of 3.77. As someone who is passionate about finding bugs in websites and Android applications, I have developed a deep understanding of the software development process. Additionally, I have experience in developing websites using Python Flask, further enhancing my capabilities in creating innovative and functional solutions. I am always ready to engage in challenging projects and contribute meaningfully to their success.

Experience

CV. NPE DIGITAL   December 2022 – November 2023

I'm QA Tester in NPE DIGITAL, a startup specializing in software development. We've successfully completed several projects for various institutions, focusing on website and mobile app. Notable projects include:

1. SIFA (Sistem Informasi Farmasi) (2022)
   - Assisted in testing the reliability and performance of the system
   - Provided valuable feedback to enhance the user experience of the application
2. E-Logbook
   - Conducted detailed testing of application features
   - Detected and reported bugs found during the testing process
3. GaramQu
   - Managed the testing process to ensure the application meets established standards
   - Detected and reported bugs found during the testing process

Mobile Programming (Android) Lab Assistant   February 2023 – June 2023

- Assisted students to understand all learning materials
- Delivered lectures every week
- Reviewed students' lab assignments

Education
